

Jeans For Genes Monday 14th –
Sunday 20th September

WHAT GENES
MEAN

Genetic disorders affect one in 25 children in the UK...

Ryan, aged 16 has
CYSTIC FIBROSIS

Conner, aged 15, has
**DUCHENNE MUSCULAR
DYSTROPHY**

Pamela, aged 19, has
SICKLE CELL ANAEMIA

Life can be very difficult for these children...

Some children look different and are often stared at and teased

Some children have to take extra care to live a normal life every day

Some children find it hard to communicate, understand and learn

Pamela's story...

Pamela's story - a Genetic Disorders UK / Jeans...

Our money makes a real difference...

Equipment, like a specialist wheelchair, or frame

Nursing and care services

Respite or a well-deserved holiday

Our Jeans for Genes Day
